

Lisa Canvas

Lisa Canvas is an economic, single-side coated, flexible canvas for high-quality graphic art applications. This product is an acid free raw canvas with an acid free inkjet receptive coating. There are no optical brighteners to cause yellowing.

Uses

Lisa Canvas is a good choice for fine art prints for galleries or art shows; commercial art production for hotels, restaurants, etc.; and theater stage backdrops.

Advantages

Thanks to its flexibility, Lisa Canvas can be easily stretched over borders without cracking. It is both dye and pigment ink compatible and is acid-free for long-term use and storage without image deterioration. Lisa Canvas can also be sewed for use as a banner or stage backdrop.

The QMLS difference

In today's fast-changing marketplace, we know how important it is to have a reliable source. Not just of products, but of knowledge and information. When you choose QMLS, you get someone who's as committed to the quality of your end product as you are. Someone who knows the options inside and out, and can help you choose the one that's best suited to

Size	Catalog#
36" x 40'	6536
44" x 40'	6544
50" x 40'	6550
60" x 40'	6560

Specifications	
Thickness	20 mil / 350 µm per ISO534
Weight	92 lb / 350 g/m ² per ISO536
pH Value	5-6 - log (H+) per DIN 53124
Ink Compatibility	Dye or pigment ink compatible. For long-term applications, pigment ink is recommended.
Optimal Print Conditions	Temperature: 50° to 86°F RH: 35% to 65%
Use and Storage Information	Unopened media can be stored flat or on end. Avoid extremely hot or cold storage temperatures. If stored hot or cold, allow media to adjust to room temperature before printing. Store unused material in its original packaging, using the end plugs to secure the sleeve into the core.
Finishing Recommendations	For protection and to reduce the impact of dirt, physical abrasion, or other environmental impact, protective sprays or thin lamination films are recommended.
