

## Supersorb Photo Satin

Supersorb Photo Satin is an opaque white, satin ink jet coated photo base paper.

### Uses

This wide format photo paper was designed for high-end graphic arts images. Supersorb Photo Satin works with most waterbased dye and pigmented inks, and is universally compatible with thermal and piezo pigment and dye ink systems. It produces high-contrast image reproduction in brilliant, true colors — it's also fast drying and has excellent capability for lamination.

Size	Catalog
24" x 100'	3724
36" x 100'	3736
42" x 100'	3742
