

Poplin Fabric Oxford Fabric

Poplin Fabric and Oxford Fabric offer you a choice of finishes and weights for applications requiring wide format fabric. Designed specifically for direct ink jet printing, each allows for the higher resolution imaging you demand. What's more, these fabrics require no post treatment and dry instantly, resulting in superior water resistance with no special handling requirements.

Poplin Fabric

Poplin Fabric is an excellent and economical choice for universal use. Its plain weave fabric of polyester fiber is characterized by a rib effect in the filling direction. Popular for POP signage, banners, and display booths, Poplin Fabric is also often seen as high-end custom tablecloths.

Oxford Fabric

Durable and wrinkle resistant, Oxford Fabric is soft but stout and features a modified basket weave with a large filling yarn. With its strength and excellent outdoor durability, Oxford Fabric is perfect for everything from signage to street banners.

The QMLS difference

When you choose QMLS, you get the convenience of three fully-stocked distribution centers in Connecticut, Cleveland, and Florida — allowing for same-day shipping and next-day delivery on most orders. Plus a follow-up call for every order, telling you when your products shipped, by what method, and when you can expect delivery. If your products are ever backordered, we give you the option of choosing an alternative at no additional cost to you.

Information provided here is based on research and is believed to be reliable as of printing date. This information does not constitute a warranty. All material should be tested by purchaser to determine final suitability. QMLS will not be held responsible for customers' end-use of product. QMLS is available for directions and advice as to proper use and application of our products.

Media	Size	Catalog #
Poplin Fabric	36" x 50'	4536
	52" x 50'	4550
	60" x 50'	4560
Oxford Fabric	36" x 50'	5636
	52" x 50'	5650
	60" x 50'	5660

Hot Knife

The hot knife is designed to cut and seam synthetic materials, especially polyester based fabrics. It comes with the proper heat blade and works best when used on glass or metal surfaces with a metal ruler. Made in Germany. One year warranty. [Click here](#) for information on use.

Specifications — Satin Fabric, Poplin Fabric, Oxford Fabric

Oxford Fabric	
<i>Fabric Weight</i>	7.8 oz per sq yd
<i>Fiber Content</i>	100% polyester
<i>Fabric Thickness</i>	0.023 mil
<i>Finished Requirements</i>	Weave = Oxford Width = Custom Ends = 104 +/- 2% Picks = 35 +/- 5%
<i>Fiber Blend</i>	Warp = 100% textured polyester Fill = 100% textured polyester
<i>Tensile (Grab)</i>	250 x 200 Test method = ASTM D5034
<i>Outdoor Durability</i>	6 months with pigmented ink
<i>Indoor Durability</i>	1 year with pigmented ink

Poplin Fabric	
<i>Fabric Weight</i>	3.75 oz per sq yd
<i>Fiber Content</i>	100% polyester
<i>Fabric Thickness</i>	0.018 mil
<i>Finished Requirements</i>	Weave = Plain Ends = 67 +/- 2% Picks = 49 +/- 5%
<i>Fiber Blend</i>	Warp = 100% textured, flame retardant polyester Fill = 100% textured, flame retardant polyester
<i>Tensile (Grab)</i>	118 lbs Test method = ASTM D5034
<i>Outdoor Durability</i>	6 months with pigmented ink
<i>Indoor Durability</i>	1 year with pigmented ink

Printing Suggestions	
Printer	Printer Setting
HP 2/3000 HP 5000	Heavy Coated Paper OR Coated Paper
Encad	QIS Canvas
Epson	Matte Paper
	NOTE: Poplin Fabric and Oxford Fabric have 3" cores to allow for less curl. To use these 3" core materials on an ink jet printer with a 2" core, put the fabric on the shaft that holds the media, then feed it into the printer without adding the cores, allowing the fabric to feed off the shaft.
