

# Imola Photo Paper Pearl

Imola Photo Paper Pearl is an economical instant dry, white photo paper with a microporous coating to accept dye, or UV pigment inks.

## Uses:

Main uses include indoor posters, photo reproductions and POP applications.

## Advantages:

Imola Photo Paper Pearl offers all the advantages of a new generation microporous paper at a more economical price. The double sided PE extruded coating has instant drying capabilities with a "pearl" surface finish. It can be used on any thermal inkjet printer and works with pressure sensitive or thermal laminates.

## Specifications:

Basis Weight	190g/45 lbs.
Caliber	7 mil
Ink	Dye or UV/Pigment
Waterfast / Waterproof	No
Outdoor Durability	Indoor use only.
Finishing	Laminate with pressure sensitive laminates like Instashield UV Lustre or thermal laminates like DigiGuard or HardGuard laminates.

Catalog #	Size
2224	24"x100'
2236	36"x100'
2242	42"x100'
2250	50"x100'
2260	60"x100'

Printing Tips: Always use gloves when handling rolls. Always print on the outside of roll. To insure best print performance of this media, clean and calibrate cartridges before loading the paper. While loading the HP 5000/5500/6100 printer, only feed 6" of paper beyond print heads. This will prevent alignment errors and banding. For best results, print in 60° to 85° and 40% to 60% RH.

## PRINTER COMPATABILITY

Printer	Dye	UV
Encad Pro600, 700, 750, 850, 10000	X	X
HP 2000,3000,5000 Series	X	X
HP Z3100, Z6100	X	X
Mimaki JV2, JV4	X	X
Roland HiFi Jet	X	X
Epson 3000,4000, 7000, 9000, 10000 series	X	X

Storage: New rolls - 50° to 86°F. 20 to 70% RH. Open Rolls - cover rolls with plastic bag, use end cap if storing on end. Do not stack rolls. Allow material time to adapt to room conditions.

## PRINTER SETTINGS

Printer	Setting
HP	Photo Paper Production
Epson	Heavyweight Matte
