

Instashield FWV

Instashield FWV is a 10 mil flexible white vinyl with a permanent pressure sensitive adhesive.

Uses

More flexible than its competitors, Instashield FWV is perfectly suited for tradeshow graphics that need added thickness and opacity. It's flexible enough to be rolled and re-rolled for shipping and storage, while its aggressive adhesive resists tunneling and delaminating. It's also a perfect complement to our ink-jet printable IJ Polycarbonate digital media.

The QMLS difference

In today's fast-changing marketplace, we know how important it is to have a reliable source. Not just of products, but of knowledge and information. When you choose QMLS, you get someone who's as committed to the quality of your end product as you are. Someone who knows the options inside and out, and can help you choose the one that's best suited to your needs.

Size	Catalog #
