

## Mounting & Laminating → Thermal Backer Films

### Hard Guard TB (Thermal Backer)

Hard Guard TB is a high opacity white, 10 mil backing paper with a low melt thermal adhesive.

#### Uses

An economical alternative to laminating film for posters, tradeshow graphics, and POPs where high opacity and flexibility are required, Hard Guard TB delivers. It offers increased bond strength, consistent quality and, when combined with hard-coat thermal laminates, provides a durable end result that won't tunnel or delaminate.

#### The QMLS difference

Quality comes first at QMLS. We find the best solutions for your mounting and laminating needs and bring them to you... on time and on budget. So you never have to worry about waste, reprinting, or relaminating.

Size	Catalog #	Price
