RI-Jet 50 Premium Cast Laminate

A high gloss, clear cast vinyl film with a polyester release liner ideal for use for vehicle wraps. The superb clarity of the cast vinyl film and of the acrylic adhesive is enhanced by the smooth polyester liner to keep the imager sharp and clear. The adhesive wets out quickly to provide a clean image, even when used as an overlaminate with perforated window vinyl. The stabilized vinyl film offers excellent UV protection, provides minimum 5-year outdoor durability, and maximum conformability. Recommended for use with RI-Jet 50 Cast White, RI-Jet 75 White, RI-Jet 75 Blockout and all manufactures perforated window vinyl.

RI-Jet Floor Talkers™

Floor Talkers™ from Ritrama can be used to communicate advertising and promotional messages in retail locations. They can also be used for directional/information purposes at malls, airports, trade shows and museums. Floor Talkers are produced with RI-Jet 145 Removable Gloss White vinyl and one of two laminates. Floor Talker Performance for long term, high traffic applications or Floor Talker Economy for temporary and short term/30-day applications. Both laminates are UL 410 classified for slip resistance. Floor Talker overlaminates can also be used for other applications that require a textured scuff resistant film, such as trade show graphics, counter mats and mouse pads.
