

ViewBond and ViewBond R

ViewBond is an optically clear, double sided mounting adhesive. It features a premium solvent acrylic adhesive that has an initial moderate tack and builds to an aggressive permanent bond.

ViewBond R is a removable version of Viewbond optically clear adhesive. When a true optically clear adhesive is required for mounting to glass and windows inside or outside - ensures clear, distortion free presentation and clean residue free removal.

Uses:

ViewBond is an excellent choice for applications where an optically clear adhesive is required such as; first surface or second surface mounting of backlit films to acrylic and other clear or translucent substrates.

Use ViewBond R for mounting to glass - inside or outside for a distortion free premium quality installation. Can be installed using the "wet method".
